

**Fall 2025**

**Course Preview Week:** August 26 - September 01, 2025

**Semester Dates:** September 02 - December 12, 2025

**SMGT 700 Cultural and Historical Foundations of Sustainability**

**3  
Credits**

In this course, you will investigate the changing relationships of humans to the natural environment, changes in dominant scientific perspectives, and the process of scientific debate. Explore the quest for understanding, manipulating, and dominating the natural world. And learn about cultural and organizational structures, the role and impact of technology, the systems approach to problem solving, and their implications for the future.
