

Spring 2026

Registration Opens: November 10, 2025

Course Preview Week: January 20 - January 26, 2026

Semester Dates: January 27 - May 08, 2026

SMGT 750 The Built Environment

**3
Credits**

This course explores how the built environment came to be, and how it intersects with human needs such as water, air, food, waste, transportation, healthcare, and education. You will evaluate community design and what a sustainable community looks like, and study related technologies while evaluating alternatives and discussing unintended consequences. This course will include case studies.

SMGT 780 Corporate Social Responsibility

**3
Credits**

This course will enable students to understand the rationale behind CSR and sustainability. It takes students through an evaluation of risks and potential impacts in decision making, uncovering the links between the success of an organization and the well-being of a community/society. Additionally, methods and standards of integrating CSR throughout an organization, creating metrics and communicating CSR policies internally and externally will be discussed, analyzed, and applied. Students will develop an understanding of best practices of CSR in its entire breadth within an organization as well as delve into economic structures designed to foster more responsibility and accountability.
