

# Syllabus for HCA 702

## Leadership Practices Across the Senior Care Continuum

---

**NOTE:** This syllabus document contains the basic information of this course. The most current syllabus is available in the full course.

### Course Description

This course provides an up-to-date review and exploration of topics critical to the success of an administrative leader in senior care and services. Selected topics focus the knowledge and application of leadership and management skills necessary in today's healthcare and aging services environment.

### Prerequisite(s)

None

### Course Outcomes

Upon completing this course, you will be able to do the following:

- Explain the leadership requirements and application across the broad spectrum of aging services, including credentials, license requirements, and ongoing development.
- Discuss and apply one's leadership skills with all the management team and senior care support disciplines and services.
- Determine effective marketing and sales practices within a senior care organization.
- Identify and explore working relationships with governing bodies and key stakeholder groups that impact the delivery of care and service for seniors.
- Evaluate and determine the need for both legal and risk management strategies to successfully operate a senior care organization.
- Assess any changes or trends in the field and determine the application of high-impact leadership practices and the need for taking ownership for one's own professional development.

### Course Requirements/Components

- Online discussions
- Online assignments
- Final presentation
